

⊗ See if you can do the same with these sums.

$$\begin{aligned} \text{(i)} \quad 37 + 22 &= 30 + 7 + 20 + 2 \\ &= 50 + 7 + 2 \\ &= 50 + 9 = 59 \end{aligned}$$

$$\begin{aligned} \text{(ii)} \quad 73 + 24 &= 70 + 3 + 20 + 4 \\ &= 90 + 3 + 4 \\ &= 90 + 7 = 97 \end{aligned}$$

$$\begin{aligned} \text{(iii)} \quad 56 + 21 &= 50 + 6 + 20 + 1 \\ &= 70 + 6 + 1 \\ &= 70 + 7 = 77 \end{aligned}$$

⊗ Write the answers directly in the boxes.

$$\text{(i)} \quad 33 + 42 = \boxed{75}$$

$$\text{(ii)} \quad 19 + 61 = \boxed{80}$$

$$\text{(iii)} \quad \boxed{90} = 48 + 42$$

$$\text{(iv)} \quad \boxed{60} = 33 + 27$$

$$\text{(v)} \quad \boxed{97} = 34 + 63$$

$$\text{(vi)} \quad \boxed{117} = 53 + 64$$

$$\text{(vii)} \quad 55 + 25 = \boxed{80}$$

$$\text{(viii)} \quad 67 + 25 = \boxed{92}$$

$$\text{(ix)} \quad 72 + 56 = \boxed{128}$$
