

Class-IV Chp-5 The Way The World Looks.
Sub-Math

Page no. 53

(1) Can you think why Grappu could see the cheese on the jug but Chinky could not?

Ans. Cheese was placed on top of jug. Grappu was hanging with a balloon. So he could easily see it whereas Chinky was running on the floor, so she could not see it.

(2) When I ran around in my house, it looked so big! But from here, it looks small. How is that?

Ans. Object are seen smaller from a distance. Grappu was seeing the house from higher in the air, so, that looked smaller.

Page no. 55

(1) Look at these pictures & discuss why things look wide & big at this end but narrow & small at the other end.

Ans. The side which is nearer to us looks wider & which is farther to us looks narrow and smaller.

Page no. 58

(1) Did Ismail go wrong somewhere? Can you correct him?

Ans. Yes, Srijata has to take left going straight after crossing the bridge.

(2) Show where Srijata will reach if she takes the route he told her.

Ans. Srijata would reach opposite to Ismail's house.

(3) Write the directions for going from Rasmal's house to Srijata's house.

Ans. Start from Rasmal's house. Take first right turn. Go straight. After crossing the bridge take first left turn. Take the second right turn, which is from milk booth. Go straight, the red coloured house is Srijata's house.

(1) Can you guess what that box-like thing was?

Ans. The box was a dice.

(2) Which number was on the opposite side of 5?

Ans. The number opposite of the 5 = $7 - 5 = 2$

(3) In the picture, which number will be at the bottom?

Ans. $7 - 1 = 6$

(4) Which number will Gribbi see if she again turns left from 5?

Ans. On turning left from 5, Gribbi would see the number 1.

(5) What will this box look like if you opened it up? Mark the correct picture.

Ans. The box looks like the fig. given in 'A', if it would be opened.

(6) Can you use this box to play a game?

Ans. Yes, I can play 'Ludo' using this box.

The End
