Q.1. How did the ant know that the other ants were not from its group?

Ans: The ant knew that the other ants were not from its group because they have special senses of smell.

Q.2. How did the guard ant recognise this ant?

Ans: The guard ant recognised this ant by its smell.

Q.3. In what ways do human beings make use of this special sense of smell of dogs?

Ans: Human beings make use of this special sense of dogs in searching the thieves, finding lost things and explosives --- etc.

Q.3. Sushila covered her nose when she cleaned Deepak's nappy, but not when she cleaned her daughter. Why do you think she did this?

Ans: She did this because she was familiar with the smell of the nappy of her own ~~son~~ ~~but~~ daughter but the smell of Deepak's nappy was new to her and she was not habituated.

Q.4. Is a smell 'good' or 'bad' for everyone in the same way? or does it depend on how each one feels about it?

Ans: No, everyone may feel different about the same smell. It only depends on what we feel about this.

Q.5. What do you think are some of the dangers to tigers in the jungle?

Ans: There are many threats to tiger in the jungle. Due to the continuous deforestation they are losing their shelters. Humans also used to hunt them for their body parts.

Q.6. Can human beings also be a threat to animal flow?

Ans: Yes, human beings are also a major ~~threat~~ threat to animals because they hunt them for flesh, skins, and other body parts.

Q.7. Write the names of National parks in India

Ans: Some national parks of India are following:-

- (i) Jim Corbett National Park - Uttarakhand.
- (ii) Gir National Park - Rajasthan.
- (iii) Anamudi Shola National Park - Kerala
- (iv) Bandhavgarh National Park - Madhya Pradesh
- (v) Betla National Park - Jharkhand.

--- etc.
