

## Ex 12.1 Class 9 Maths( solved exercise)

### Question 1.

A traffic signal board, indicating 'SCHOOL AHEAD', is an equilateral triangle with side  $a$ . Find the area of the signal board, using Heron's formula. If its perimeter is 180 cm, what will be the area of the signal board?

**Solution:**

Let each side of the equilateral triangle be  $a$ .

Semi-perimeter of the triangle,

$$s = \frac{a + a + a}{2} = \frac{3a}{2}$$

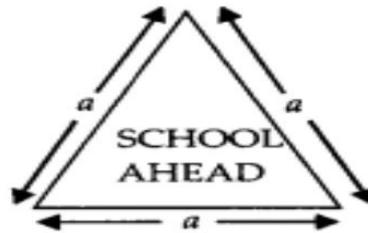

$$\text{Area of the triangle} = \sqrt{s(s-a)(s-b)(s-c)}$$

$$= \sqrt{s(s-a)(s-a)(s-a)} = \sqrt{s(s-a)^3}$$

$$= \sqrt{\frac{3a}{2} \left( \frac{3a}{2} - a \right)^3}$$

$$= \sqrt{\frac{3a}{2} \times \left( \frac{a}{2} \right)^3}$$

$$= \sqrt{\frac{3a^4}{2^4}} = \frac{\sqrt{3}}{4} a^2$$

Now, its perimeter is 180 cm.

$$\therefore a + a + a = 180 \text{ cm}$$

$$\Rightarrow 3a = 180 \text{ cm}$$

$$\Rightarrow a = \frac{180}{3} \text{ cm} = 60 \text{ cm}$$

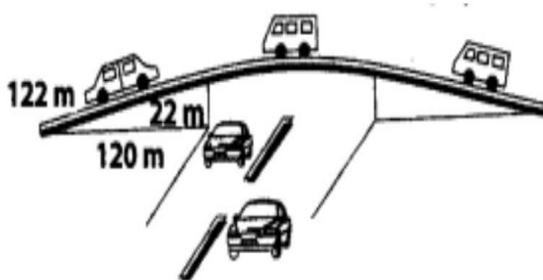

$$\text{Thus, area of the triangle} = \frac{\sqrt{3}}{4} a^2$$

$$= \frac{\sqrt{3}}{4} (60)^2 \text{ cm}^2$$

$$= 900\sqrt{3} \text{ cm}^2$$

## Question 2.

The triangular side walls of a flyover have been used for advertisements. The sides of the walls are 122 m, 22 m and 120 m (see figure). The advertisements yield an earning of ₹5000 per m<sup>2</sup> per year. A company hired one of its walls for 3 months. How much rent did it pay?

Solution:

Let the sides of the triangle will be

$$a = 122\text{m}, b = 120\text{m}, c = 22\text{m}$$

Semi-perimeter,  $s = \frac{a+b+c}{2}$

$$\frac{(122+120+22)\text{m}}{2} = 132\text{ m}$$

The area of the triangular side wall

$$= \sqrt{s(s-a)(s-b)(s-c)}$$

$$= \sqrt{132(132-122)(132-120)(132-22)} \text{ m}^2$$

$$= \sqrt{132 \times 10 \times 12 \times 110} \text{ m}^2$$

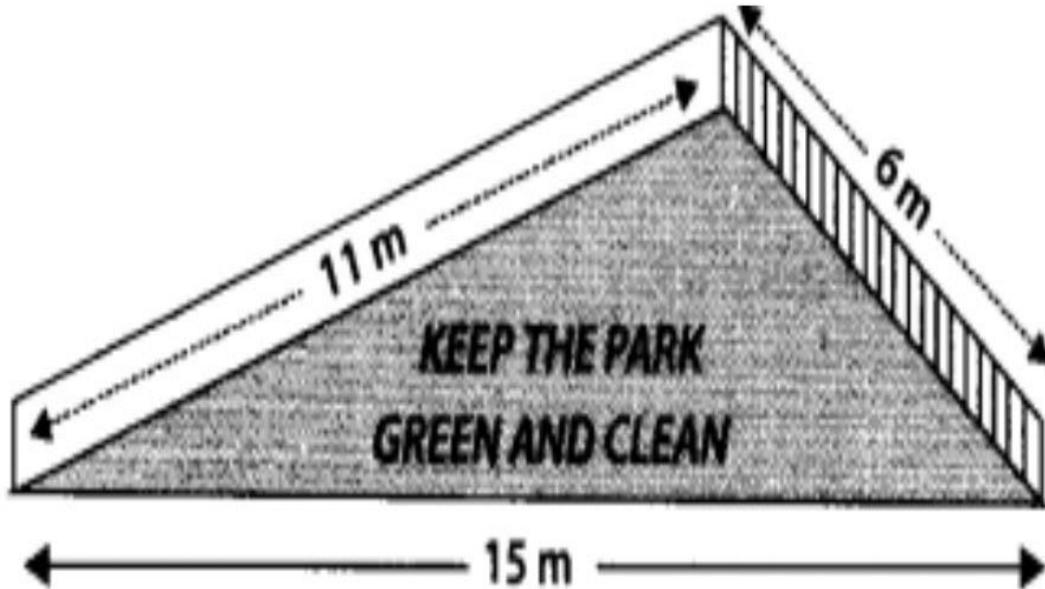

$$= \sqrt{12 \times 11 \times 10 \times 12 \times 11 \times 10} \text{ m}^2 = 1320 \text{ m}^2$$

Rent for 1 year (i.e. 12 months) per m<sup>2</sup> = Rs. 5000

∴ Rent for 3 months per m<sup>2</sup> = Rs. 5000 x 312  
= Rent for 3 months for 1320 m<sup>2</sup> = Rs. 5000 x 312 x 1320 = Rs. 16,50,000..

### **Question 3.**

**There is a slide in a park. One of its side Company hired one of its walls for 3 months.walls has been painted in some colour with a message “KEEP THE PARK GREEN AND CLEAN” (see figure). If the sides of the wall are 15 m, 11 m and 6m, find the area painted in colour.**

**Solution:**

**Let the sides of the wall be**

**$a = 15\text{m}$ ,  $b = 11\text{m}$ ,  $c = 6\text{m}$**

**Semi-perimeter**

$$s = \frac{a+b+c}{2} = \left(\frac{15+11+6}{2}\right)\text{m} = \frac{32}{2}\text{m} = 16\text{m}$$

Now, area of the triangular surface of the wall

$$= \sqrt{s(s-a)(s-b)(s-c)}$$

$$= \sqrt{16(16-15)(16-11)(16-6)} \text{ m}^2$$

$$= \sqrt{16 \times 1 \times 5 \times 10} \text{ m}^2$$

$$= \sqrt{2 \times 400} \text{ m}^2 = 20\sqrt{2} \text{ m}^2$$
